† Daily Value (DV) not established *Percent Daily Values are based on a 2000 Calorie Diet for pregnant women and lactating women.		

Other Ingredients: Bovine Gelatin, Glycerin, Yellow Beeswax, Soybean Oil, Purified Water, Soy Lecithin, Titanium Dioxide, FD&C Red #40, Ethyl Vanillin, FD&C Blue #1, White Ink.

CONTAINS: FISH OIL (ANCHOVY) AND SOY GLUTEN-, LACTOSE-, AND SUGAR-FREE

OB Complete® Petite is a prescription multivitamin/multimineral indicated for use in improving the nutritional status of women prior to conception, throughout pregnancy, and in the postnatal period for both lactating and non-lactating mothers.

CONTRAINDICATIONS

This product is contraindicated in patients with a known hypersensitivity to any of the ingredients.

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. KEEP THIS PRODUCT OUT OF REACH OF CHILDREN. In case of accidental overdose, call a doctor or poison control center immediately.

WARNING

Ingestion of more than 3 grams of omega-3 fatty acids per day has been shown to have potential antithrombotic effects, including an increased bleeding time and INR. Administration of omega-3 fatty acids should be avoided in patients on anticoagulants and in those known to have an inherited or acquired bleeding diathesis.

PRECAUTIONS

Folic acid alone is improper therapy in the treatment of pernicious anemia and other megaloblastic anemias where vitamin B₁₂ is deficient. Folic acid in doses above 0.1 mg daily may obscure pernicious anemia in that hematologic remission can occur while neurologic manifestations remain progressive. Allergic sensitization has been reported following both oral and parenteral administration of folic acid.

The patient's medical conditions and consumption of other drugs, herbs, and/or supplements should be considered.

DRUG INTERACTIONS

OB Complete® Petite softgel capsules are not recommended for and should not be given to patients receiving levodopa because the action of levodopa is antagonized by pyridoxine. There is a possibility of increased bleeding due to pyridoxine interaction with anticoagulants (e.g., Aspirin, Heparin, Clopidogrel).

ADVERSE REACTIONS

Adverse reactions have been reported with specific vitamins and minerals but generally at levels substantially higher than those contained herein. However, allergic and idiosyncratic reactions are possible at lower levels. Iron, even at the usual recommended levels, has been associated with gastrointestinal intolerance in some patients.

DESCRIPTION

OB Complete® Petite is an oval-shaped plum colored softgel capsule, imprinted "VP 059".

DIRECTIONS FOR USE

One softgel capsule daily or as directed by a physician.

HOW SUPPLIED

OB Complete® Petite is supplied in a 30 count child-resistant bottle.
Product Code: 68025-059-30

STORAGE: Store at controlled room temperature 15°-30°C (59°-86°F) [See USP]. Protect from light, moisture and excessive heat.

DO NOT USE IF SAFETY SEAL UNDER CAP IS TORN OR MISSING.

KEEP OUT OF REACH OF CHILDREN.

PATENTED FORMULA. U.S. PAT. No. 8,263,137

For use on the order of a healthcare practitioner.
